Punching units UNI POWER

tool: straight cut or chain sections

Fixed corner- & olive drilling heads

for all well-known fitting types

Olive units

for wood, aluminium and plastic window processing

Drilling heads with planetary & reduction gear systems

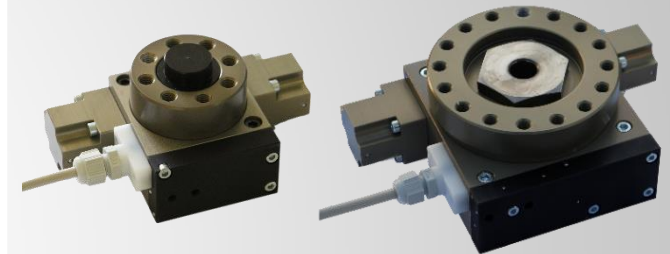

Pneumatic turret stops PRVA

right or left design

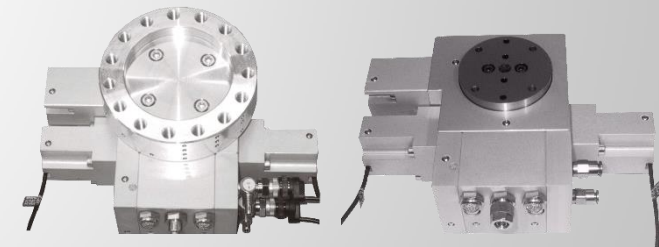

Rotational stops PRVA NT

pivoting left/ right & left (bidirectional rotation)

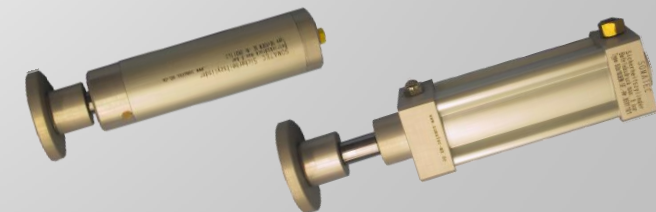

Rotary switching elements

bidirectional rotation

Safety clamping cylinder

for use without other safety devices

Drilling units B63

direct drive/ belt drive

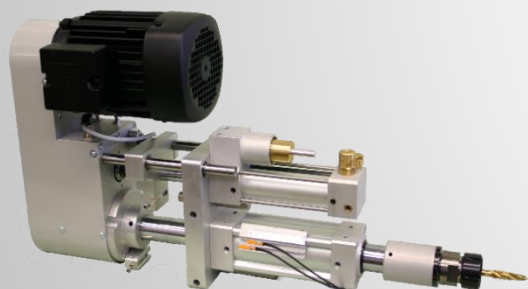

B63 multi-spindle units

quantity & distance as required by customer

Combinated drilling & tapping units

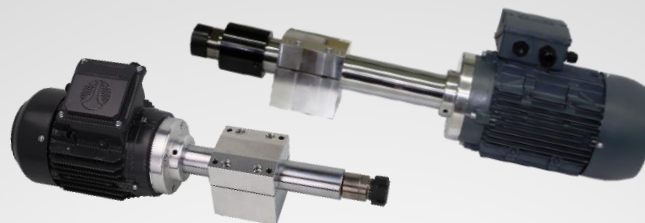

Drilling units B80 & B100

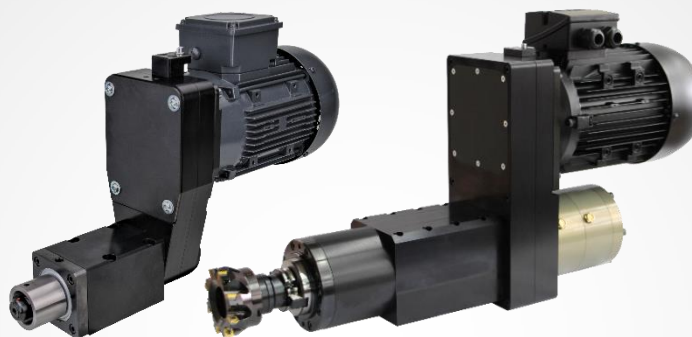

Drilling spindles ER25 & ER32

direct drive/ belt drive

Milling spindles

SK40 / HSK-C63 / HSK-C50

Adjustable drilling heads

ER11 up to ER20

Customer specific drilling heads

with fixed spindles ER8 up tp ER25

Hydropneum. power cylinders

13 kN – 300 kN at 6 bar

& pressure boosters

DU100 / DU125 / DU160

Oil brake & rapid cylinders

Pneumatic valves

hand, foot & switching valves
