

## Olive drilling gear 3 spindles

Olive drilling head 3 times with planetary precursor  
Center distance: M10- 21.5 / 21.5

### Execution:

- Reduction planetary stage  $i = 5: 1$
- Gear ratio spur gear distributor stage  $i = 1: 1,26$
- Spindle center: direction of rotation right
- Spindles outside: direction of rotation left
- Max. Input speed 4,000 rpm
